

Arch Coal Announces Pricing of \$375 Million Senior Notes Offering

ST. LOUIS, Nov. 14, 2012 /PRNewswire/ -- Arch Coal, Inc. (NYSE:ACI) today announced the pricing of \$375 million aggregate principal amount of its 9.875% senior notes due 2019 at an issue price of 95.934% of principal amount, resulting in a yield to maturity of 10.75%. Due to strong investor demand, the offering was upsized to \$375 million from the previously announced \$350 million. Arch will pay interest on the notes on June 15 and December 15 of each year, beginning on June 15, 2013. The notes will be guaranteed by Arch's subsidiaries that guarantee indebtedness under Arch's senior secured credit facility.

Forward-Looking Statements: This press release contains "forward-looking statements" — that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties arise from changes in the demand for our coal by the domestic electric generation industry; from legislation and regulations relating to the Clean Air Act and other environmental initiatives; from operational, geological, permit, labor and weather-related factors; from fluctuations in the amount of cash we generate from operations; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law. For a description of some of the risks and uncertainties that may affect our future results, you should see the risk factors described from time to time in the reports we file with the Securities and Exchange Commission.
