Arch Resources, Inc.
Attachment to IRS Form 8937

On November 3, 2020, the company issued \$155.3 million in aggregate principal amount of 5.25% convertible senior notes due 2025 ("Convertible Notes"). The company has provided a notice of adjustment to the conversion rate applicable to the Convertible Notes.

Under IRC Code Section 6045B, any issuer of a "specified security" must file an information return setting forth: a description of any organizational action (for example, stock splits, mergers and acquisitions, convertible debt) that affects the basis of the specified security of the issuer, the quantitative effect on the specified security's basis resulting from the organizational action, and any other information IRS may prescribe.

The information in this document does not constitute tax advice and is not intended or written to be used, and cannot be used, for the purpose of avoiding penalties under the Code. Holders of the Convertible Notes should consult their own tax advisors regarding the particular tax consequences of the conversion rate adjustment to them, including the applicability and effect of all U.S. federal, state and local and foreign tax laws. Such information is not intended to be a complete analysis or description of all potential federal or other tax consequences of the conversion rate adjustment.

Form 8937, Part II, Line 14

Date of action:	August 30, 2022	Dividend Amount	\$ 6.00
-----------------	-----------------	-----------------	---------

Immediately after the open of business on August 30, 2022 (i.e., the ex-dividend date of the dividend paid on September 15, 2022), in connection with the cash dividends previously announced by the company, the conversion rate of the Convertible Notes was adjusted from 28.2102 to 29.2819 per \$1,000 of principal amount.

Form 8937, Part II, Line 15

In connection with company's payment of the cash dividend described in line 14, the new conversion rate adjustment resulting from the deemed distribution is an increase of \$175.68 per \$1,000.00 principal amount of Convertible Notes. The company expects that it will have sufficient earnings and profits. Accordingly, as a result of the increase in the conversion rate of the Convertible Notes, each Convertible Note holder is expected to include \$175.68 in gross income as a dividend per \$1,000.00 with a resulting basis increase of the same amount.

Form 8937, Part II, Line 16

The conversion rate adjustment is calculated pursuant to section 5.05(A)(iv) of the indenture dated November 3, 2020 between the company and UMB Bank.

CR₀ = the Conversion Rate in effect immediately prior to the open of business on the ex-dividend date of such dividend or distribution, or immediately prior to the open of business on the effective date of such share split or combination;

CR₁ = the conversion rate in effect immediately after the open of business on such ex-dividend date or such effective date;

SP₀ = the last reported sale price of the common stock on the trading day immediately preceding the ex-dividend date for such dividend or distribution

D = Dividend or cash amount distributed per share of common stock

$$\begin{aligned} \text{New Conversion Price: } CR_1 &= CR_0 \times (SP / (SP - D)) \\ &= 28.2102 \times (\$163.93 / (\$163.93 - \$6.00)) \\ &= 28.2102 \times 1.0379915 \\ &= 29.2819 \end{aligned}$$

Form 8937, Part II, Line 17

IRC Section 301(c)(1), 305(b)(2) and 305(c). IRS Reg. 1.301-1(h).

Form 8937, Part II, Line 18

There is no associated loss recognition.

Form 8937, Part II, Line 19

The reportable tax year for this conversion rate adjustment is 2022 for a calendar year taxpayer.

Form 8937 was amended to correct the effective date of the conversion rate adjustment. The originally filed document inadvertently reported an incorrect date. The effective date is the ex-dividend date, as presented in this amended document.
